Hi Karl,

Here is a table that has some rates based on the utility bills. The \$/kWh is supposed to be even lower but averaging other costs causes that to go up a little bit.

Table 1: 2016 Monthly consumption and demand charges

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Avg.
\$/kWh	0.063	0.063	0.064	0.066	0.066	0.073	0.038	0.075	0.076	0.077	0.071	0.071	0.067
\$/kW	14.68	14.54	14.54	14.54	14.54	15.94	17.47	17.47	17.47	16.22	14.46	14.46	15.53

Let me know if you have any questions or need any other information.

Best,

Mohammad
